# OVER THE YEARS

Commentaries based on cataloging over 300 sales and collecting since 1928

Much has happened since we had our last public sale a year or so ago. After being in the Royal Union Building for 40 years, we were forced to move (it will be demolished before long). Our present quarters in the Capital City Bank Building, while being more spacious, is still a bit cramped until we finish unpacking many of the remaining boxes. It took months of preparation before moving and now, months later, we are still not completely unpacked. Many pleasant surprises have occured in the unpacking ----- items we have not seen in years surfaced. Hopefully, we will finish unpacking by the end of the year.

Duplicates of the CLIFFORD-KAGIN COLLECTION of PIONEER & TERRITORIAL GOLD (on display at the Old San Francisco Mint) become available as we occasionally find a better specimen. Anyone interested in acquiring some of these should make their desires known and when they are replaced, "want-lists" will be given consideration.

Don has been away much of the past year, studying and doing research on his Ph. D. in Numismatics. He spent a several-months internship in New York with Professor Douglas B. Ball studying American Economic and Monetary History. Other courses have included the History and Science of Coining Processes, which necessitated study at the U.S. Mint in Philadelphia and the Franklin Mint ; metallurgy as it relates to numismatics; two-week intensive course in counterfeit detection; professional coin photography; and Art in Numismatics. Particular emphasis has been placed on research and analysis in PRIVATE & TERRITORIAL GOLD COINS, PATTERNS & SPECIE INGOTS (as well as related material). Research has included study at several museums, historical societies and institutions in San Francisco, Sacramento, Salt Lake City, Denver, Rutherfordton, Baltimore, Washington, New York, et al. Anyone having anything pretaining to this field not published in Adams' (1913) book is urged to contact Don Kagin. Proper acknowledgement will be given for new information. His acquiring the walking cane inscribed "CAL. GOLD" & "COUNT S. WASS" (Samuel Wass of Wass Molitor & Co.) etc. was particularly gratifying.

The market, after stabalizing in gold coins, has gone on to set new records in gold and copper coins. Early American coins ("Colonials") have been particularly active. We feel that they are still greatly undervalued in keeping with their true rarity, historical importance and increasing interest in the 200th year of the United States. It is particularly gratifying to be able to offer the Nate Smith Collection, as well as other consignments, of Early American coins and currency. MANY ARE OF THE GREATEST RARITY AND POSSIBLY "THE FINEST KNOWNS." We still receive a thrill out of "handling" them in cataloging great collections. Several are "old friends" that we have "handled" two or even three times during our forty-odd years as professional numismatists. Hopefully, we will have opportunities to "handle" some of them again in coming years.

Compiling the information for the New Fifth Edition "Donlon Catalog of U.S. Large Size Paper Money" was finally completed in June and it was published the end of July. They will be packed and shipped as soon as possible. The market values for U.S. paper money is still advancing at a rapid pace and we expect to pay "Over Catalog" for many notes at the A.N.A. convention in New York later in August. Don and I will be there with personally autographed copies of the new edition. It might be fun to compare prices in the new edition with those in the previous one published about 1½ years ago. We hope many of our "old friends" as well as new ones will attend this sale. Since our association with the "M.A.N.A. Family" several years ago, we have come to really know many on a personal basis and have deep admiration for this commitment and hard work in putting on the annual convention. It is a year-long effort for several and many months work for others. It "pays off" in a well run show with many visitors saying, "I'll be back next year." Keep it up.

# Canada 10c 1893 Round Top 3
# UNCIRCULATED!

POSSIBLY THE SECOND FINEST KNOWN SPECIMEN!

285. Lot 520 of New Netherlands Sept. 1964 sale described:

"1893 Round-Top 3. Partly bright, partly toned, not quite perfect, UNCIRCULATED. Evidently once cleaned, but not too badly, not unusual so. The obverse shows practically no signs of abrasions except under a strong lens; the reverse discloses minor bag-marking, including a small nick at the lower right reverse rim, and has some very light planchet porosity between the date and denomination. The numeral 3 is rather softly impressed as always on this coin. Very unusual, to say the least! Superior to the best known American specimens, and second only to the brilliant uncirculated example lately seen on the west coast, which is definitely a five-figure item. In this condition, as rare as any Canadian coin, and conservatively valued at $7,500.00."

The 1 in the date is clearly double-punched as always on this very rare variety.

The brilliant uncirculated specimen referred to brought $16,000.00 in 1964 at the Southern California Convention and became part of the famous Canadian collection in Texas.

If the term "Chance Of A Lifetime" could be applied to a Canadian coin, then surely this term would apply to this remarkable rarity. It has been 12 years since its last appearance; who knows how many years will elapse until it again comes upon the market. Less rare Canadian coins have more than doubled in value during the past 12 years, therefore we conservatively value this "Chance Of A Lifetime" coin at $10,000 to 15,000.00.

Acquired 1972 as "SECOND RAREST 1840-49 – BREEN" at $450 when it cataloged $600; now that it catalogs double, we believe it will bring double –– 900.00.

778. 1850, 51, 53, 55 Fine to Very Fine. 4 Pieces.

## 1793 S-11a CENT "CONDITION-CENSUS"

779. **1793 S-11a, Wreath, Vine & Bars edge, EXTREMELY FINE with reverse being a bit sharper than obverse. Acquired as "RARITY 6, EXTRA FINE, FIFTH FINEST KNOWN."** It has a lovely smooth bluish brown surface. The obverse (in our opinion) is a full 35 (About Extremely Fine) or possibly 40 (Extremely Fine), however the reverse is at least 45 (Sharp Extremely Fine) or possibly 50 (About Uncirculated). Dr. Sheldon lists "CONDITION-CENSUS" as (70-60-55-45-35-30). According to Dr. Sheldon's formulae for values, this **desirable rarity** should have a value of over 6,000.00.

780. 1794 S-55, Fine (sharp but eroded surface, minor abrasions).

781. 1794 S-65, Fine, tiny edge nick.

783. 1797 S-140 Very Fine except light scratches in field, small rough spot.

785. 1798 S-184, small 8, 3rd rev., 2nd hair, **About Uncirculated** with lovely bluish chocolate color, minute planchet chip after TY. Probably worth $500 or so.

## CHOICE 1799 LARGE CENT

786. **1799 S-189, Late die state with BOLD DATE & BUST; BERTY (as usual) not fully struck up (corresponding portion of reverse - the fraction- also not struck up).** *Scott states:* "Always found on rough, dark, narrow planchets." **A TOP-GRADE VERY FINE, BORDERING ON EXTREMELY FINE with even chocolate color and remarkably free from the usual abrasions which seem to plague this date.** *The rarest date large cent in highly desirable condition.* Catalogs V.F. $2,700 and E.F. $4,500; surely this choice specimen worth closer to the latter valuation.

## 1800/179 CENT UNCIRCULATED "CONDITION-CENSUS"

787. 1800 OVER 179, S-194, late state of dies with heavy die break reverse edge. Rarity 3. UNCIRCULATED BROWN BLENDING TO CHOCOLATE. CONDITION-CENSUS" as Sheldon lists (65-65-60-60-50-50). This rarity probably worth over $2,000; perhaps closer to 2,500.00.

RARE! Undoubtedly "CONDITION-CENSUS" which includes (65-55-45-40-30-25). Dr. Sheldon's formulae give this rarity a value of well over 1,000.00.

790. 1805 S-269, Pointed 1 in date (much scarcer than usual blunt 1 variety)(until recently, listed in Guidebook as Major Variety), Sharp Extremely Fine rather than the "About Uncirculated" for which acquired. Probably worth $400 or so.

791. 1806 Very Fine appearing but somewhat porous planchet. Scarce date.

792. 1809 Extremely Fine & Sharp with attractive brown color, struck slightly to the left resulting in the left stars not being struck up as fully as the right stars, faint pinscratches visible (only on close examination). The present** year-old Scott lists it page 75 as still R-8 without a value. Since nickels for the most part have doubled in the last five years or so, we feel this **EXCESSIVELY RARE MAJOR VARIETY** surely worth over double the old price of 900.00.

## 1792 HALF DISME

868. **1792 HALF DISME** (page 58 Guidebook) Fair with most of design legible (clever repair), Fine **Bold Date!** Mentioned by G. Washington in his Message to Congress in November, 1792. Struck from silverplate furnished by Washington, who placed the coins in circulation.

## HALF DIMES STARTING 1794

887. **1823/22 small E's, Brilliant Uncirculated, Sharper Struck than most with Deep Edge Denticles and FULL STARS.** *Scott states* "Generally underrated and more than quadruple the rarity of the large E's variety." Valued there (well over a year ago) at $2,500 compared to $1,100 for the usual Large E's variety. The new Guidebook now values the Large E's at $2,150 (reflecting the strong demand for Unc. specimens the past year); therefore the **RARE small** E's should now be worth close to double the $2,500 value of over a year ago.

898. **1844 About Uncirculated,** tiny edge nick, lovely blue patina. *Scott states* "Very rare in Unc." Cat. E.F. $350 however we believe the $1,250 for Unc. to be quite conservative; worth closer to the latter than the former valuation.

899. 1850 Borderline Uncirculated, barest friction.

900. 1853 ARROWS, Extremely Fine & Sharp. **Popular "type" coin.**

901. 1854 ARROWS, Brilliant borderline Uncirculated, barest friction. Popular.

## UNCUT SHEETS 12 LEGALS

Now quite popular for displays and hanging in dens as well as including in collections. The very low number issued (only 6 to 100 sheets of each) makes the potential for rise in value self-evident.

1227. $2 1928-C UNCUT SHEET 12, crisp Uncirculated but has vertical crease between notes. ONLY 25 SHEETS ISSUED! *How many can still exist today?* Catalogs $2,000 which seems quite low in keeping with its rarity.

1228. $5 1928-D UNCUT SHEET 12, crisp Uncirculated, quite choice! No record of how many issued but it has the scarce Julian-Vinson signatures. The catalog values it higher than all the other $5 notes, therefore it is assumed that it is THE RAREST OF THE $5 SHEETS! The $2,500 catalog seems quite conservative in keeping with its rarity.

## UNCUT SHEETS 12 & 18 SILVERS

1229. $1 1928 UNCUT SHEET 12, Uncirculated but short ink mark top left, another bottom left margin, tiny one bottom right and tiny brown spot, creased vertically and horizontally between notes, slight crinkling. Mounted in ornate frame lettered "Very Low Serial Numbers, One Of The First Silver Certificates Printed. Probably Printed On The First Day Of Small Note Changeover." Numbers A00000733A thru 744. No record of how many sheets issued. Catalogs $1,200; this worth proportionately.

1230. $1 1928-D UNCUT SHEET 12, crisp Uncirculated, quite choice! Only 60 sheets issued but due to the rarity of single notes, most were cut up for singles! Not priced in catalog due to rarity. There was a sheet in our July, 1975 M.W.N.A. sale with "Hewitt-Donlon Catalog has it "RARE" without a price. We note an ad earlier this year by Bebee's at $5,449.50." Now, 1½ years later it will be interesting to see what this rarity brings in this strong currency market.

1231. $1 1935-B UNCUT SHEET 12, crisp Uncirculated but some yellowing at ends of white sheet margin. Only 100 sheets issued. Catalogs 1,000.00.

1232. $1 1935-E UNCUT SHEET 18, crisp Uncirculated. Only 400 sheets issued. Cat. 900.00.

1233. $5 1934 UNCUT SHEET 12, Crisp Uncirculated, Quite Choice! DESIRABLE LOW NOS. A00000241A THRU 252!! ONLY 25 SHEETS ISSUED! *How many can still exist?* Records indicate 100 sheets were issued for 1934-C, 34-D, 1953 and "no record" for 1934-A, 34-B. From the price structure, this is assumed to be THE RAREST $5 SHEET! What a combination – RARITY PLUS DESIRABILITY OF LOW NUMBERS! The catalog value of $2,000 seems quite low as we know of a sheet sold well over a year ago at somewhat more, when it cataloged less.

## $1 & $2 RECONSTRUCTED PANES SIX FROM GRINNELL SALE

Notes plate A to F consecutively numbered, cut apart and reconstructed to a sheet with thin white strips of paper on back between notes.

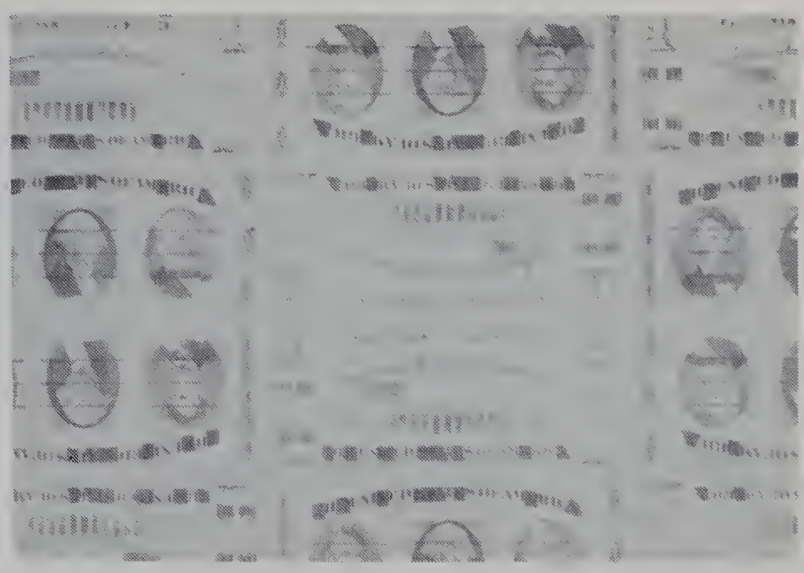
1234. $1 1928 Lot 5755 of the Celebrated Albert A. Serial Nos. 325 to 330. Obv. plate 16. This is the first and only issue of $1 bills of the Legal Tender Series. Very few are seen in circulation. Very rare sheet." Uncut sheets of 12 are excessively rare and bring quite a few thousand when available. This crisp uncirculated reconstructed pane of six (half sheet) acquired at $1,200; present value?

1235. **$2 1928 Lot 5756 of Grinnell Sale, reconstructed half sheet of six, crisp Uncirculated.** Catalog $45 each as singles. Uncut sheet 12 catalogs $2,000; this half sheet acquired at $500; present value?

## SHEET 32 BEP — GIORI TEST NOTES

1236. **UNCUT SHEET 32 (4 across, 8 down) Uncirculated but crinkled from being shipped to us registered in a mailing tube (it arrived slightly bent). *Coin World* April 7, 1976 page 58 has the following by Nathan Goldstein II:**

"The Giori press used by the Bureau of Engraving and Printing as we know it today is quite different from the early version. About six years ago some very interesting test "notes" became known to American collectors. We illustrate one of the early items, which was printed on both the face and reverse from plates prepared at the BEP. These plates were sent to West Germany where the Giori organization was working on the presses. The plates were 32-subject, and there are two color variations known (to date); black ink face side and reddish brown on reverse. The second was slate green on face and black on reverse. Up to this time, only single notes had been seen, or reported. As these were "test" items, and no obligation of the U.S., they can be legally held. However, all impressions were supposed to have been destroyed.



"We now come to the existence of a "sheet" which has just been reported by Frank A. Novak of The Vault, Prescott, Ariz. It is different in a number of ways from the single notes that have appeared. There must have been more than one plate, and of course more than one design submitted by the BEP. In the sheet we see an admixture of designs, face and reverse. It is the opinion of the writer that the sheet was an early printing, and from a plate that had been used and discarded before the later and much better printings were accomplished. This sheet is printed on one side only, and has been folded three times vertically and one horizontally, etc. This sheet is listed in Novak's new price list and priced at $3,500.00."

**Entire two page article with pictures accompanies sheet. This sheet, the second known, is superior to the above as it does not have any of the creases. Present value?**

1280. 1766 Halfpenny struck in brass and TIN-PLATED AS ISSUED, just about E.F. Listed in Scott but unpriced due to rarity and infrequency of appearance! We expect to see this rarity bring upwards of 3,000.00.

1281. (1766) Undated $1 size silver, glittering bluish wire edge **PROOF.** While the smaller tokens served as farthings and halfpennies in a coin shortage, we have been unable to confirm the circulation of these larger silver pieces. The last such piece we saw was valued $500; present value?

## FRENCH COLONIES (In America)

1282. 1767 French Colonies sou, counterstamped RF (Rep. France), Extremely Fine with usual worn spot on reverse opposite counterstamp. Catalogs 120.00.

**1283. 1820 Struck in brass (rarer than usual copper) with corded edge. Ex. New Netherlands (about 15 years ago) as "V.F. (for piece) holed – corrosion, as almost always." As stated in Guidebook *"all but one known specimen are holed"* (for suspension or stringing to prevent loss?).** Since practically all have been dug up from the ground, the corrosion is understandable. The Guidebook lists only V. Good (the condition in which most of the few existing specimens are known). Rare in any condition but **EXTREMELY RARE IN THIS SUPERIOR CONDITION!** Surely this rarity worth upwards of 2,500.00.

## 1776 PROOFLIKE CONTINENTAL DOLLAR

Authorized by the Continental Congress and struck in Philadelphia, they saw limited circulation. Pewter was commonly used for utensils and in the absence of silver, was serviceable to a degree.

**1284. Lot 601 of our Tercentenary Sale Part II Sept. 16, 1974 described:**

"Authorized by the CONTINENTAL CONGRESS, many collectors include this as the FIRST DOLLAR OF WHAT IS NOW THE UNITED STATES.

1776 CURENCY, struck in pewter, from a sale five years ago wherein it was described as "A FANTASTICALLY SHARP STRUCK SPECIMEN! The lines around each of the 13 colonies cut over dots, SMOOTH PROOFLIKE SURFACE with LOVELY LIGHT BLUE PATINA!

Acquired as a "MUSEUM PIECE," it came from Europe valued at at $5,000.00. The only comment we can make about this valuation is that in other series of U.S. coins, this ratio of values (condition 60 compared to 70 coins on Sheldon Scale) does exist. The present owner paid $5,000 to own this. **BY FAR, THE CHOICEST SPECIMEN WE HAVE SEEN OF ANY VARIETY IN OUR FORTY YEARS AS PROFESSIONAL NUMISMATISTS!!!!** Surely the present strong demand for Early American coins, especially for those of EXCEPTIONAL QUALITY, AS WELL AS RARITY, should bring bids over $10,000; probably now closer to 15,000.00." It realized $23,000.00.

**Probably the MOST POPULAR COIN TODAY as THE ONLY U.S. COIN DATED 1776!**

## 1783-85 NOVA CONSTELLATIO COPPERS

1285. 1783 CONSTELLATIO, pointed rays, small U.S., Very Fine. 100.00

1286. 1783 Pointed rays. Large U.S., scarce early die state with **Sharp Strike** Sharp Extremely Fine. RARE THUS. 500.00

1287. 1783 Similar but STRUCK OVER VERMONT CENT, later die state, Very Fine obv., Very Good reverse. Acquired as "Rare."

1288. 1783 CONSTELATIO (one L) blunt rays, about V.F. (usual dark, porous planchet). 100.00

1289. 1783 Blunt rays, LIBEKTAS variety. Extremely Fine. 250.00

1290. 1785 Changed reverse with Large script intertwined U.S., pointed rays, struck from usual rusted dies, Very Fine (usual dark, porous planchet). 90.00.

**1291. 1785 Pointed rays and rusted dies but earlier die state struck on larger and better planchet, Uncirculated lite brown. The** present Guidebook lists this popular coin in Fine & E.F. at over 50% more than the year-old Scott but does not attempt to value Unc. Scott valued Unc. at $1,000 a year ago; therefore this **remarkable specimen** surely worth upwards of 1,500.00.

## COINAGE OF THE STATES – MASSACHUSETTS

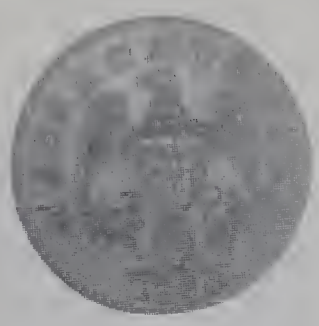
**The first U.S. coins on which "CENT" and "HALF CENT" appear.**

**1292. 1787 Cent, variety without period after Massachustts, 5 leaves & exceptionally long 7's in date (R:4-C), borderline Uncirculated, Sharp Struck, lustrous chocolate with faint trace of red, unusually smooth planchet, only barest friction removes this exceptional specimen form the "gem" category. The "commonest" variety is listed in Scott Unc. at $1,000; now over a year later we believe this desirable specimen and variety worth very close to that $1,000.00 price.**

**1293. 1787 Half Cent, R:4-C variety, no periods, LUSTROUS BROWN UNCIRCULATED, SHARP STRUCK ON AN UNUSUALLY SMOOTH PLANCHET, GEM!!!! A fantastic specimen for the perfectionist. The year-old Scott lists ordinary Unc. of the commonest variety at $1,200; this exceptional specimen should now exceed 3,000.00.**

1294. 1788 Cent, R:12-M variety, Very Fine, tiny planchet chip after S. Scarce variety.

**1295. 1788 Cent, R:10-L variety,** ***Uncirculated Lustrous Bluish Brown with Faint Hint of Red, Sharp Struck, Choice!*** The year-old Scott value of $1,000 for ordinary Unc. is quite low today, particularly for such an exceptional specimen. Easily worth over $2,000; probably closer to 2,500.00.



1296. 1788 Half Cent, Crosby 1-B variety, UNCIRCULATED LUSTROUS BROWN, SHARP STRUCK ON UNUSUALLY SMOOTH PLANCHET, CHOICE! The year-old Scott value of $1,200 for ordinary Unc. does not reflect the present value for an exceptional specimen such as this We would be surprised if this remarkable example does not bring in the neighborhood of $3,000.00.

## 1785-88 CONNECTICUT STATE COINAGE

The Guidebook states "Connecticut coppers, especially those dated 1787 and 1788, were usually crudly struck and on imperfect planchets." Allowances should be made for poor striking on poor planchets.

1297. 1785 Bust right, M.3-1, A3 variety (R2), about Very Fine obverse, typical struck reverse with center figure fairly sharp but periphery not struck up and weak 5, planchet defect at left has created tiny hole. "Common" 1785 Cat. V.F. $150; this worth?

1298. 1786 Mailed bust facing left, Fine. Catalogs 65.00.

1299. 1787 Draped bust left, ETLIR variety (M 34-ff) better planchet than usual with only minor porosity (most come heavily porus, etc.), Extremely Fine and far superior to most seen! VERY RARE THUS. Easily worth over 300.00.

1300. 1787 Draped left, sm. let. (M 17-g) Very Fine. "Common" Cat. $75; this worth?

1301. 1787 Draped left, CONNLC variety (M 32-x) about Extremely Fine with only lite striations on planchet, far superior to most seen. RARE, PARTICULARLY SO CHOICE! Easily worth 400.00.

1302. 1787 Mailed left, CONNEO (closed C) (M 8-O) Fine. Scarce. 75.00

1303. 1787 Mailed left, HORNED BUST (early die state with small horn) Extremely Fine, unusually smooth planchet. Rare thus. Easily worth 400.00.

1304. 1787 HORNED BUST (late die state with very large horn) (M 4-L) Very Fine. SCARCE! 200.00

1305. 1787 "Horned Bust" dies (M 4-L) but RARE perfect die state **before** "horn" die break starts to develop, Very Fine with slightly uneven planchet. 300.00

1306. 1787 Mailed left, INDE LI LIB (M B-L) Extremely Fine. Rare so choice. 350.00

1307. 1787 Draped left, ETIIB (M 37–) Very Fine with usual weak struck center rev., punch-mark on obv. Catalogs V.F. $125; this worth?

1308. 1787 Mailed left, LAUGHING HEAD (M 6-1) Very Fine. Scarce. Catalogs 120.00.

1309. 1787 Mailed left, STERN HEAD (M 11-K2) Very Fine but dark, some encrustation on rev. downgrading it somewhat. The "commonest" variety Cats. V.F. $100; this worth?

1310. 1787 Draped, ETLIB one word (M 33-2, Z-5) Fine. 50.00.

1311. 1787 Draped, CONNEO, Good, planchet striations.

**1312. 1787 Draped, FALLEN "o" (AUCTORI) (M-33LD, Z-8) Sharp Extremely Fine (only slight friction) Sharper Struck and better planchet than usual. Rare thus. Easily worth upwards of 500.00.**

1313. 1787 Draped, DOUBLE PUNCHED "N" (second N in CONNEC) with Original N too high (M 33-16, Z-15), planchet striation obv.; half-inch rev., About Uncirculated (rev. shows bit more friction), quite sharp. Well worth 500.00.

**1314. 1787 Draped, ETLIP. (M 33-28, Z-11),** Bisecting die break across obverse, break at date causing only 87 to show, About Uncirculated with nice even brown color. **A remarkable specimen** of this rarity. It would not surprise us to see this unusual piece receive spirited bidding.

1315. 1787 Small Head Facing Right, ETLIB INDE, DOUBLE-STRUCK causing planchet to be larger than normal, Fine but part of reverse incused. Acquired 1967 when it was valued $100;present value?

1316. 1787 Draped, CONNFC, Double-Punched first "N," OVERSIZE PLANCHET, (M 33-3, W-1) Sharp Extremely Fine obverse, Very Fine reverse. 250.00

1317. 1787 Draped, INDF (M 33-37, Z-9), Very Fine. 100.00

1318. 1787 Draped, AUCIORI (M 38-GG), Very Fine. Catalogs 100.00.

1319. 1788 Mailed bust right (M 2-D), high cheek-bones, Extremely Fine, some striations of planchet causing some portions of reverse not to be fully struck up. Scarce this choice. 275.00

**1320. 1788 Small mailed bust right (B-2), struck over Nova Constellatio, about Fine but small punch-mark on neck.** Scott lists it R7 (ONLY 7 TO 9 KNOWN) with a value of Good $175 & Fine $375 but without any price for higher conditions. Surely this VERY RARE TYPE COIN worth much more than the modest prices indicated.

1321. 1788 Mailed left Struck Over another coin (especially evident left of LIB) (10-c), Fine (some minor abrasions). Normal variety catalogs $60; this worth?

## 1787 NEW YORK IMMUNIS COLUMBIA UNCIRCULATED

**1322. 1787 IMMUNIS COLUMBIA around seated figure/Large Eagle, UNCIRCULATED LUSTROUS BROWN, SHARP STRUCK ON FULL PLANCHET WITH COMPLETE DATE AND LEGEND SHOWING!** A glass reveals just the faintest rub (from reposing in an old-time coin cabinet?). *Scott states* "Usually struck on small thick planchets with date barely visible." **SUPERIOR IN STRIKING AND CONDITION TO THE SPECIMEN PICTURED IN GUIDEBOOK!** The Guidebook reflects the rarity in better conditions by more than doubling the price for each grade: Good $175; Fine $325; V.F. $800; E.F. $1,750. The year-old Scott lists: Fine $750; V.F. $1,250; E.F. $1,800; A.U. $2,750. We cannot help but feel that this "FANTASTIC" specimen will set new records.

## 1786-87 NEW JERSEY STATE COINAGE

1323. 1786 Narrow Shield, Fine (usual striated planchet). Catalogs 55.00.

1324. 1786 Slightly wider but still narrow shield (M-24-P), About Extremely Fine. 175.00

1325. 1786 Wide Shield (M-15-J), Very Fine. Catalogs 150.00.

1326. 1787 Outlined Shield (39-a variety) Very Fine (dark planchet). Catalogs 100.00.

1327. 1787 Large Planchet, plain shield (64-t variety) about Very Fine. Catalogs V.F. 100.00.

1328. 1787 Serpent Head variety, Fine, planchet break at top. Catalogs 100.00.

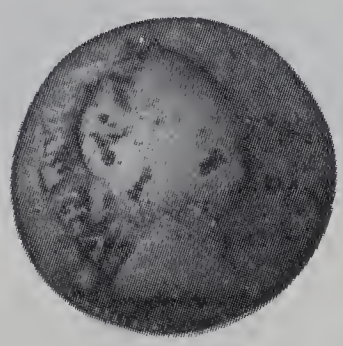
1329. 1787 Large Planchet, sprig below plain shield (M-62), about Very Fine. Cat. V.F. 100.00.

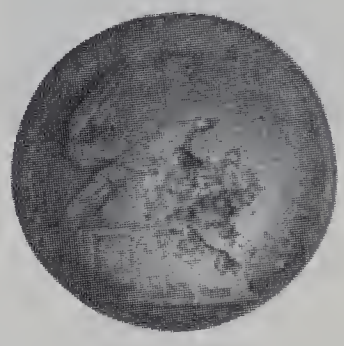
## 1785-88 VERMONT STATE COINAGE

**Guidebook states "Most Vermont pieces are struck on poor and defective planchets."**

**1330. 1785 IMMUNE COLUMBIA (Ryder 1). From a Stack's auction described:**

"An excessively rare coin. Probably no more than about a dozen known in all conditions, most of which are in miserable shape because they were crudely struck. This specimen is no exception. The bust is in complete evidence as is the word VERMON and parts of AUCTORI. The planchet is defective in the center of the reverse. The date is almost all on the planchet, which unusual. VERY GOOD."





**This is the first opportunity in all our forty-odd years as professional numismatists that we have had the privilege to catalog a specimen of the IMMUNE COLUMBIA VERMONT CENT. The owner searched for a great many years to obtain a specimen with the FULL DATE SHOWING. Even the Guidebook specimen does not have any of the date showing. We believe the catalog value to be quite conservative at only $1,350 Good & $4,000 Fine. Surely this GREAT RARITY WITH FULL CLEAR DATE worth over 2,500.00.**

1331. 1786 VERMONTENSIUM (7 trees)(Ryder 6) About Fine (usual strike from broken dies on a defective planchet). RARE (Rarity 4). The "commonest" Vermontensium catalogs $275 Fine; this worth?

**1332. 1786 VERMONTENSIUM (8 trees)(Ryder 7) late die state with bulge at plow, date side Very Fine, star side closer to Extremely Fine. VERY RARE variety in EXCEPTIONAL CONDITION! Probably worth $1,500 or so.**

1333. 1786 VERMONTENSIUM (9 trees)(Ryder 8) die broken above plow, Very Good with the outer portions Fine, usual defective planchet. VERY RARE (Rarity 5). 300.00

**1334. 1786 BABY HEAD (Ryder 9), this seems to fit the description of the one in Bowers & Ruddy Rare Coin Review 22, Spring 1975 described:** "F-V.F. With a few characteristic planchet flaws, but far above average. A really exceptional specimen of this elusive and highly desired variety..... 1,295.00." The right edge legend is not fully struck up although the balance of the coin is exceptionally sharp. Scott states "Generally found struck on defective flans." We agree; it is a most unusual and desirable specimen of this rarity.

1335. 1787 BRITANNIA reverse (Ryder 13), intermediate die state III, Sharp Very Fine with typical weak reverse (Guidebook states "Reverse of this coin is always weak"). Close to sharpness of Guidebook plate coin. We note a similar coin in B & R R.C. Review 22, Spring 1975 pictured page 16 described "E.F. Very rare in such high grade! 395.00 Graded by the obverse only, as the reverse on all known specimens is nearly smooth."

**1336. 1787 BRITANNIA (Ryder 13), rare very early die state I with traces of 87 visible (rev. always very weak), just about Extremely Fine and comparable to the one pictured in Guidebook. Quite rare thus. Well worth 500.00.**

**1337. 1787 BRITANNIA (Ryder 13), early die state II with date not showing but much of left and all of right reverse legend showing, VERY LARGE PLANCHET, tiny planchet clip at right as made, Very Fine (graded by obv.). RARE! 500.00**

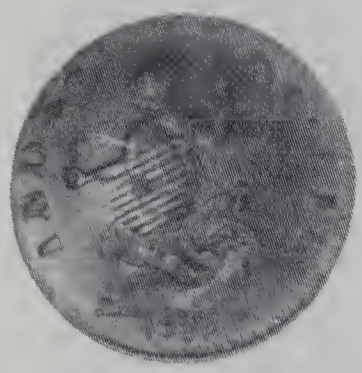
1338. 1787 BRITANNIA (Ryder 13), late die state VIII (the one usually seen) struck from broken obverse die on a typically rough planchet, Fine. Catalogs 150.00.

1339. 1788 SMALL BUST (Ryder 16), smaller bust than pictured in Guidebook Sharp Good with typical rough planchet. **Rare.** "Commonest" variety Cats. $50 Good; surely this worth more.

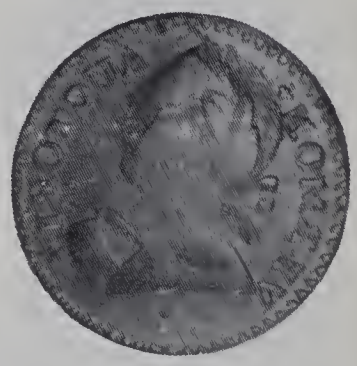
**1340. 1788 MUCH LARGER BUST (Ryder 20), Very Good, struck on typical rough planchet (although better than on most seen). VERY RARE (Rarity 5) and among the better-grade specimens known. Probably worth $500 or so.**

1341. 1788 LARGE BUST (Ryder 23), Sharp Very Good bordering on Fine, typical rough planchet. VERY RARE (Rarity 5).

1342. 1788 MEDIUM BUST as pictured in Guidebook (Ryder 25), very early die state with only faintest trace of die crack at collarbone, Very Good obverse with reverse only partially legible. Rare (Rarity 3).



**1343. 1788 MEDIUM BUST (Ryder 25) but late die state VII with die break at collarbone quite advanced, STRUCK OVER 1782 IRISH HALFPENNY (rarely seen with as much of undertype visible), near UNCIRCULATED with only slight friction, much luster! EXCEPTIONAL GRADE!**



1344. 1788 CONNECTICUT TYPE (Ryder 27), Fine to Very Fine but edges slightly compressed as if in a vise.

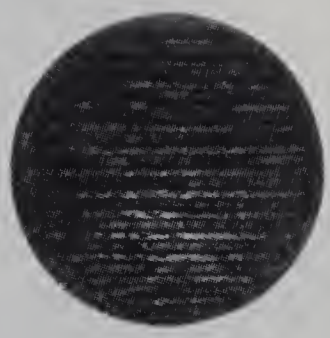
## PRIVATE TOKENS OF THE CONFEDERATION

1345. AUCTORI PLEBIS around bust to right/HISPANIOLA 1736 around harp, Fine. Listed in Crosby (page 343) as circulating in the U.S. Not to be confused with usual 1787 Auctori Plebis token. The last specimen we handled was in 1969 – Fine valued at $250 – present value surely somewhat more.

1346. (1792-94) KENTUCKY TOKEN, Plain Edge Pair, very small planchet & Very Large Planchet, near Uncirculated, slight friction. First is **VERY RARE**, second is RARE. Acquired 1969 when they were valued $350; surely they should now be worth substantially more.

1347. KENTUCKY lettered edge (Lancaster, etc.) Fine/Very Fine, tiny nick. 100.00

**1348. (1785) BAR "CENT" Extremely Fine in sharpness but as typical of so many of the early copper coins, the planchet is somewhat rough. Genuine (most we have seen are not). Cat. E.F. 1,200; this worth?**



**1349. 1795 TALBOT ALLUM & LEE CENT, Glittering Red, Bluish Brown SHARP STRUCK, WIRE EDGE PROOFLIKE GEM!** We note similar ones sold the past two years as "PROOF" at well into four figures. It will be interesting to see what this remarkable specimen now brings.

## WASHINGTON PIECES

**1350. "GW" Counterstamped on Guatemala (NG) 1 real dated 1791 of Charles IIII, coin about Fine but counterstamp Very Fine.** Notation with coin has "New Orleans." Since these coins circulated extensively in the United States, it is entirely possible that it has some some connection with New Orleans. Quite rare and interesting.

1351. 1783 GEORGIUS TRIUMPHO, Fine with usual broken reverse die causing it to be less sharp than obverse. Catalogs 100.00.

1352. 1783 Large Military Bust, Liberty on plain rock, about Very Fine. Catalogs 60.00.

1353. 1783 Similar bust but Liberty on stippled rock, Very Fine, some pinpoint spots rev. Scarce. 125.00

**1354. 1783 Large Military Bust, scarce Liberty on stippled rock, B-5 variety, iridescent UNCIRCULATED, a glass reveals tiny contact mark in field. Acquired as "FINEST KNOWN"!**

1355. 1783 Small Military Bust, plain edge, Sharp Lustrous Extremely Fine, tiny edge nick. SCARCE. Much scarcer than catalog of only $150 indicates!

1356. 1783 Draped Bust, Copper restrike, engrailed edge, brown Proof. Catalogs 175.00.

1357. 1783 Similar but **SCARCE Thin Planchet,** Sharp Extremely Fine obverse/Very Fine reverse.

1358. 1783 Unity States, Sharp Extremely Fine. **Rare thus.** Scott states "Planchets usually rough on edges, apparently from filing to simulate natural wear." A remarkably sharp impression. Much scarcer thus than the modest $150 catalog might indicate.

1359. (1783) Undated Double Head, usual impression with Wide Edge, Fine. Catalogs 50.00.

1360. (1783) Double Head, narrow wire edge and beaded border, near Uncirculated with only slight friction. Rare so choice!

1361. 1789 WASHINGTON BUTTON worn on the great coat "MEMORABLE MARCH THE FOURTH 1789" (inaugeration date) around eagle with shield on breast, sun above, small hole, shank removed from reverse. Some buttons with shank removed have been said to have circulated as cents.

1362. 1791 Cent, small eagle, edge lettered UNITED STATES OF AMERICA, Baker 16, UNCIRCULATED Mint Red blending to lovely bluish brown, Sharp Struck, minute planchet chip at edge as made! We note specimens the past two years occasionally offered extoling the rarity and desirability with price tags well into four figures.

1363. 1791 Cent, Large Eagle, Fine & Sharp with some claims to the Very Fine for which acquired.

## DIE TRIAL & PATTERN WASHINGTONS

1364. 1791 UNIFACE DIE TRIAL PIECE IN PROOF, Large Eagle, edge lettered "PAYABLE AT SHREWSBURY," dies cut by Hancock and manufactured by Obidiah Westwood. The only other piece known is in Johns Hopkins University. Verified by Walter Breen. From a 1967 sale valued at $1,500; present value 9 years later?

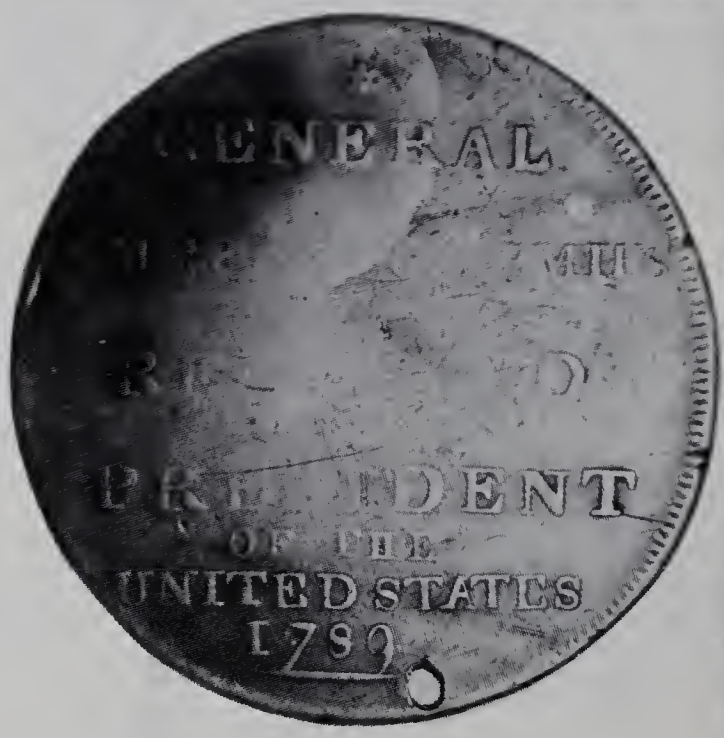
1365. 1791 REJECTED PATTERN for Large Eagle Cent, struck in brass, also by Hancock & Westwood. Verified by Walter Breen. THE ONLY KNOWN SPECIMEN! From the same 1967 sale valued $2,500; present value?

# "INCREDIBLE" 1792 "WASHINGTON BORN" SPECIMENS

1366. (1792) BORN VIRGINIA/1775 below ICAN, VIRTUALLY UNCIRCULATED, ONLY FAINT RUB AWAY FROM STRICTLY UNCIRCULATED! SHARP STRUCK WITH LOVELY LUSTROUS BLUISH BROWN PATINA! Possibly a "Presentation Piece" (because of sharp striking). The faint rub may be from reposing in an old-time coin cabinet. A *fantastic specimen* far exceeding those offered from leading collections in recent years. Certainly a candidate for "FINEST KNOWN"! Even the specimen pictured in the Guidebook is well worn. The Guidebook lists it only in Fine at $2,000; the year-old Scott at: Fine 1,800; V.F. 2,450; E.F. 5,250.00. We will not speculate on what the listing might be for this incredible specimen.

1367. (1792) BORN VIRGINIA/1775 below CANA (obv. B-60, rev. B-59 as used for "President" rev.), INVERTED REVERSE. Scott states "ONLY 4 KNOWN (including MHS museum)"! ABOUT UNCIRCULATED WITH ONLY SLIGHT FRICTION ON HIGH POINTS, SHARP STRUCK WITH LUSTROUS BLUISH BROWN PATINA! The only weakness is in RIC. We do not know how it compares with the other specimens, but how much better can one hope to obtain? Scott does not attempt to value this great rarity.

## 1792 WASHINGTON "BORN VIRGINIA" IN SILVER



1368. (1792) BORN VIRGINIA, STRUCK IN SILVER, practically perfect centering with the obverse a SHARP STRUCK FINE! The reverse is Sharper Struck than usually seen on the copper with most of the legend quite sharp and only the center portion not legible, some light pinscratches visible when closely examined. Small hole between WASHINGTON and BORN as on the specimen offered by Stack's May, 1976. That specimen was described as "Very Fine" and was bid up on the floor to $15,000.00. *THIS IS THE ONLY SPECIMEN WE HAVE HAD THE PRIVILEGE OF CATALOGING IN ALL OUR FORTY-ODD YEARS AS PROFESSIONAL NUMISMATISTS!!!!* Scott lists it as number C408 (page 47) WITH ONLY 4 SPECIMENS KNOWN (2 are with plugged holes). This Baker 60a is the same variety as Stack's May, 1976 specimen wherein they state "One of only about five known in all" and "We cannot recall ever having seen another silver specimen offered in a public sale in decades."

## (1792) WASHINGTON PRESIDENT

1369. (1792) WASHINGTON PRESIDENT plain edge, about Good obverse, reverse not legible. From the 1967 A.N.A. sale. **RARITY 7 (ONLY 7 TO 9 KNOWN!).** Listed in only one grade in Guidebook – Fine at $5,500.00; this worth?

1370. 1793 Ship Halfpenny, high grade Very Fine (struck from dished dies causing center not to be struck up as fully as balance). Catalogs V.F. 150.00.

1371. 1795 Halfpenny Grate Token, Large buttons, reeded edge, lustrous bluish brown Unc., choicer than most with smooth prooflike surface. A **premium specimen** worth over 300.00.

1372. (1793?) SUCCESS medal, Large, reeded edge, brass, Fine to Very Fine with typical soft strike in center of reverse, some minute pinscratches visible when closely examined.

1373. (1795) NORTH WALES halfpenny, typical uneven strike (dies were deliberately worn before striking so that the coins would appear "circulated"). Comparable to Guidebook and Scott plate coins. As choice a specimen as we can recall seeing. Probably a technical "Fine to Very Fine" grade but where would you find a better one? Listed in Guidebook in only Good and Fine. We believe the "Fine" price of $175 in the Guidebook is unrealistic for a specimen such as this.

# 1792 WASHINGTON HALF DOLLAR with ORNAMENTED EDGE

1374. 1792 Half Dollar, small eagle, copper, ORNAMENTED EDGE, Baker 24 with Large Planchet, Very Fine, identifiable by tiny spot in field. Dies by Peter Getz of Lancaster, Pennsylvania. The Mint Act of April 2, 1792 provided that the head of the President appear on the obverse of the coinage. When introduced in Congress by Senator Robert Morris, it was accompanied by patterns for a half dollar. The silver impressions were distributed in the Senate and the copper ones in the House. The House of Representatives objected to the Washington head design as "monarchical" and the bill was finally amended to provide for a liberty head. All of the remaining 1792 patterns were struck after passage of the bill and conform to this provision. Only a few were struck with ornamental edge, the great majority had the plain edge. This Very Fine specimen is among the better condition ones of the few known to exist. The ORNAMENTAL EDGE is not priced in either the Guidebook or in Scott. It will be interesting to see what this *EXCESSIVELY RARE* piece brings.

1375. $1 1854 TYPE II, Sharp Extremely Fine, minute nick on neck.

1376. $2½ 1843-O small date, Very Fine, nice even wear.

1377. $2½ 1871-S Very Good.

## $2½ 1905 BRILLIANT PROOF

**1378. $2½ 1905 BRILLIANT PROOF. Only 144 struck. Catalogs 1,500.00.**

1380. $5 1847 Recut 7, Extremely Fine & Sharp.

1381. $5 1909-D Brilliant about Uncirculated, minute edge nick.

1382. $5 1912 Nice Fine.

1383. $5 1916-S Very Fine, nice even wear.

1384. $10 1887-S Extremely Fine.

1385. $10 1907 INDIAN, Extremely Fine & Sharp, much luster.

1386. $20 1873-S TWENTY D., About Uncirculated, quite sharp with luster.

1387. INDIA (1782/1799) 1 Fanam, Lot of 10, F289, V.F. to E.F. Catalog $25.00 each.

## UNLISTED 1905 $20 GOLD COMMEMORATIVE ON DENVER MINT OPENING

**1388. 1905 DENVER obv./Blank rev., REEDED EDGE AND MILLING AS ON A REGULAR STRUCK COIN, Brilliant Prooflike, two pinpoint nicks in blank field. UNLISTED GOLD-PLATED (bronze?)!** HK-876 (Hibler-Kappen's book "So-Called Dollars," 1963) is bronze but this gold one was evidently unknown at the time. HK states "This medal was **ACTUALLY THE FIRST PRODUCT OF THE DENVER MINT,** struck in 1905 to test new machinery and, some believe, NEW DIES FOR A $20 GOLD PIECE." Piece is about the size of a double eagle and was issued as a souvenir at official opening ceremonies of the Mint in early 1906. Despite the statement that "thousands were struck," the medal was unobtainable at the Mint following the ceremonies and was "decidedly scarce" in Denver."

We do know of several PROOF $20 1906-D and it is certainly possible that a few of these $20 size gold-plated pieces were prepared for some of the ceremonies.

# PROVEN PERFORMANCE — THE KAGIN AUCTION SALES

## After conducting OVER 300 SALES, we believe we know how to obtain for you THE BEST POSSIBLE RESULTS!

**1** **EXPERIENCED CATALOGING – A.M. Kagin has PERSONALLY CATALOGED OVER 300 SALES. A record UNIQUE IN NUMISMATICS.** Don Kagin has recently completed a course in the History and Science of Coin Processes, which necessitated STUDY AT THE U.S. MINT in Philadelphia and the FRANKLIN MINT; metallurgy as it relates to numismatics; a two-week intensive course in COUNTERFEIT DETECTION; and a course in professional photography. His "growing up in the business" has included cataloging and doing research at Northwestern University (resulting in the **first Degree in Numismatics**), postgraduate work at Johns Hopkins, doing research under the direction of A.M. Kagin and Paul Kagin, postgraduate work at A.N.S., Smithsonian, U.S. Archives in Washington, various U.S. mints and former private mints (ultimately leading to a Ph.D. in Numismatics). Don's wide attendance at coin conventions, auctions, research projects and "rap sessions" with leading dealers and collectors has given him an unusual insight into the present day values. **Philip S. Joseph** has been associated with the Kagins for over 15 years. His experience in turning out a sale has proven invaluable. **Robert H. Spector** and **Judith Kagin Spector** have been instrumental in improving the quality and photography of the catalogs. **H.S.** (Henrietta–Mrs. A.M. for 31 years) has been "around" for quite a while doing whatever she can to assure that the sales go smoothly. In short, **WE ARE A "FAMILY CONCERN PUTTING OUR REPUTATION ON THE LINE IN ORDER TO OBTAIN THE BEST POSSIBLE RESULTS."** We expect to be *around* for several more generations and are dependent upon our reputation of obtaining maximum results to keep the flow of collections coming for future auctions (350th, 400th, 500th?).

**2** **THE QUALITY OF OUR CATALOGS SPEAKS FOR ITSELF.** The photography, layout and descriptions are designed to present the coins properly so that they will obtain the maximum results. (this is where EXPERIENCE – THE PRICELESS INGREDIENT becomes essential).

**3** **THE COMBINED PUBLIC AND MAIL-BID SALE GIVES YOUR COINS & CURRENCY MAXIMUM COVERAGE.** Our mailing list, assembled over a great many years, is constantly being brought up to date to include new buyers. Special lists of collectors who concentrate in limited fields (die varieties of Large Cents, Half Dollars, Tokens, Confederate Currency, Nationals, etc.) are carefully checked each sale to be certain they receive the catalogs which contain items that may interest them (many times, these reminders are followed-up with personal phone calls).

**4** **LOW COMMISSION RATES – 10% to 25% depending upon quality and quantity.** Our business is exclusively "mail-order." Secure bank vault protection (we are in a bank building) and fully insured. Check our catalogs and prices received to verify the **top results** that can be obtained by competent and motivated professionals.

**5** **THEN CALL (or write if you prefer) Art (A.M.) or Don Kagin giving a description of your collection. Don't be surprised if the answer is "I'll be there on the next plane."**

## REMEMBER: "WE LAY OUR REPUTATION ON THE LINE EVERY TIME WE PRODUCE AN AUCTION SALE"

## KAGIN'S PRIVATE & TERRITORIAL INVESTMENT PROGRAM

A UNIQUE program under the *personal* supervision of Don Kagin and A.M. Kagin. This program must be limited to only a few. Not many coins now exist, and availability is sporatic. Don's intensive research (which will ultimately be incorporated and published in book form) will alter the rarity and values of a number of pieces. Until this book is published, some "bargains" can still be obtained. BUT ----- in order to take advantage of these "bargains," you must be a member of this investment program. Time is of the esence in this area, as unlike other fields, only a single specimen may become available before the book is published. Much new and surprising information has been uncovered in this intriguing field. Those availing themselves of this program will receive something educational (often something unpublished) with every purchase.

Yes, I am interested in your **PRIVATE & TERRITORIAL GOLD Investment Plan.** Please send me (without obligation) more information.

## IN ORDER TO SELL, WE MUST BUY

Many of our bidders are just *"looking for the best opportunities for investment."*

In response to those requests we have developed the Kagin Numismatic Investment Program. There are other types of programs around the country – but this One is *Different.*

You receive the *personal attention & service of A.M. or Don Kagin* – Proprietors, NOT salesmen – who will work withyouto develop the EXACT investment program that meets your particular desires.
